

Oh Radiant Christ Surrender Prayer

This singing 'posture prayer' is intended to surrender every aspect of your being into the 'divinity that is within you,' which is Christ. For Christ is the Spirit of Love and Light of God within our very own soul. The logic of this practice is fairly self evident , and once you have performed it a couple of times you will be able to remember it easily. This practice is a great way to prepare yourself for any spiritual activity such as prayer, meditation or spiritual studies. It should always be performed with "bended knees,' and the soles of your feet off the ground. You can kneel, sit cross legged or in a chair with your feet crossed at the ankles. It's also suggested to have a lighted candle in your presence while performing this prayer.

Chorus:

Oh radiant Christ.

Oh giver of Life. I surrender to you. (Repeat 5 X)
